19 It has taken four months to bring this matter to disposal. The work in this section requires to be looked into. I understand that the budget estimates of most of the Dt boards, if not all, have not yet been sanctioned, though seven months in the year are nearly over. In regard to other papers also, there is undue delay at every stage, which has to be avoided.

20 Darangre is an important & thriving town, which is growing at considerable speed & it is necessary to provide it with an adequate & satisfactory system of water supply. I agree therefore to the suggestion made in para-17.

DRAFT FINAL NOTE

Subject:- Scheme for the improvement of
the distribution Mains ^{Town} of Davanagere Municipality
Water Supply system of
----- HH 876

The Deputy Commissioner, Chitaldrug District, has reported that the distribution Mains for the supply of water to Davanagere Town, were laid as long back as 1917, when the population was barely 17,000, that the town has since expanded in all directions and the population now is ^{their} nearly 50,000, and that the present water supply is found to be very inadequate

The Municipal Council have accordingly submitted plans and estimates aggregating Rs 1,10,000/- for improving the distribution mains so as to provide for an adequate supply of water to all the localities in the Town. This estimate has been scrutinised by the Chief Engineer for Irrigation and is found to be in order.

In regard to the financing of the scheme, the Municipal Council pray that the cost of the work may be met by the Government and the Municipal Council in equal proportions.

Since Davanagere is an important and thriving town, which is growing at considerable speed, it is necessary to provide it with an adequate and satisfactory system of water

supply It is therefore considered necessary to sanction the estimate for Rs 1,10,000/-, the expenditure being met by the Government and the Municipal Council in equal proportions, The Government share of the cost viz , Rs 55,000/- will ^{be} provided out of the grant under - 'Improvement of Water Supply to Towns' in the State Budget for 1947-48

The Dewan and the other Ministers of - Council ^{are} agreeable to the above proposals, which ^{I submit} are accordingly submitted for His Highness' gracious approval. *Hecho*

Mr. Mear...

30/9/46

Subject, Sanction to the scheme for improvement of distribution
mains for Davangere water supply

Sir,

I have the honour to state that the distribution mains for the supply of water to Davangere town were laid so long back as the year 1917 when the population was barely 17000 and the town has since extended in all directions and its present population is nearly 50,000% and the present water supply is found very inadequate and in some of the localities, people are depend on wells situated at great distances

Estimates and plans aggregating Rs 1,10,000/ for improvement distribution mains for providing adequate supply of water for all the localities of the town have been prepared by the Municipal Engineer and scrutinized by the Sanitary Engineer (vide his letter No 44 dated 16-7-1946)

The Municipal council at its meeting held on 17-4-1946 and 17-7-1946 has resolved, that the work being very urgent, the estimate may be sanctioned and the Govt be requested to meet moiety of the cost

The financial condition of the Municipality is by no means sound Besides, it has got very heavy commitments as noted in the margin and is not in a position to bear the entire cost

	Amount of estimate	of this
1) Duplicating the electric pumping unit at Davangere water works at Harihar	50200/-	proposed
2) Construction of a R C C tank of the capacity of 2 lakhs of gallons of water,	192175/-	work As the
3) Duplicating the rising main for water supply	52000/-	matter is
4) Construction of the building to locate the Municipal office,	50000/-	one of
5) Construction of the bus stand,	53500/-	extreme
6) Under-ground drainage,	275000/-	

urgency and adequate water facilities have to be provided to the rate-payers I recommend that the Govt may be pleased ,

1) To sanction the scheme estimated to cost of Rs 1,10,000/ and

(half)
(2) to meet half the cost of the estimate, the other half being met by the Municipality

Due provision has been made in the budget of the Municipality to meet this expenditure during the current year. A recommendation has also been made by me in this office letter No AG C 424-76p46-47 dated 6-9-1946 requesting the Govt to contribute a sum of Rs 55,000/ out of the water supply improvement grants during the current year.

The collection work in the Municipality is not satisfactory. Besides the payment of dearness allowance has been a very heavy drain on its resources. Unless the Municipal council enhances the rates of Octroi and levies Octroi on all articles permissible under the Town Municipalities Act 1933, it would not be possible for it to carry out ~~the~~ even the most essential items of water supply and other improvement works. The Municipal President has been instructed to take immediate necessary action and to revise the taxes and adopt coercive measures for the collection of all arrears.

The entire file of papers ending with letter No H C 123/45-46 dated 6-9-1946 received from the President of the Municipality is enclosed herewith for favour of reference.

I have the honour to be,
Sir,
Your most obedient Servant,
